

Department of Computer and Information Science

Date of Event: 3/8/2023

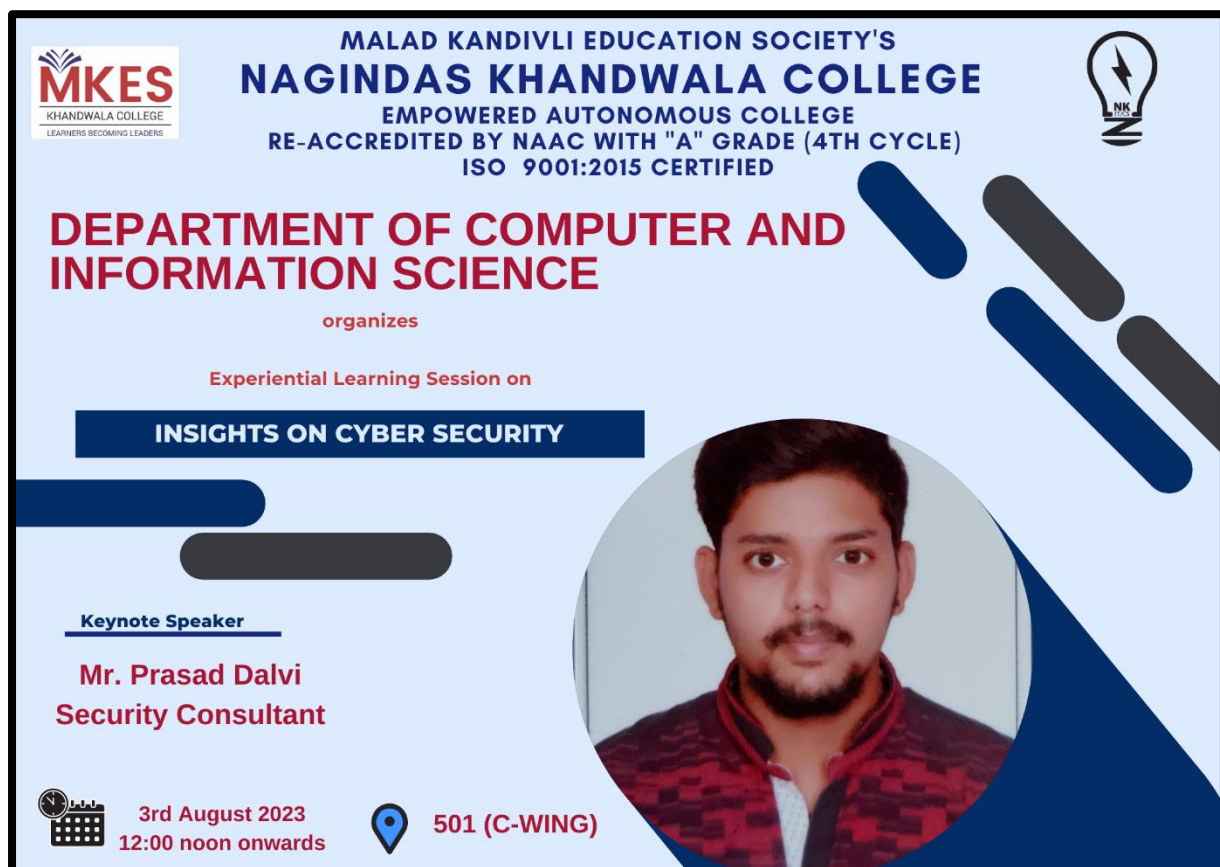

Time: 12:00 – 1:00 pm

Venue: C Wing 501

Title: Insights on Cyber Security

Resource Person: Mr. Prasad Dalvi

The department has organized a cyber security session to provide valuable insights into the evolving landscape of digital threats and defenses. The session highlighted the importance of user education in preventing phishing and social engineering attacks. Industry experts emphasized the significance of multi-factor authentication and encryption in safeguarding sensitive data. Discussions also centered around the critical role of threat intelligence sharing among organizations to stay ahead of emerging cyber threats. Overall, the session underscored the need for a holistic approach to cybersecurity that combines technological solutions with informed user practices.
