## **GREEN CLUB**

Organizes

# **E-Waste Collection Drive**

**Date: 21<sup>st</sup> August 2024**

**Venue: Room no. 18**

**No of Participants: 121**

### **Description:**

Nagindas Khandwala College's Green Club organizes E- waste collection drive as electronic waste, or e-waste, has become a burgeoning environmental concern in today's technology-driven world. The rapid obsolescence of electronic devices, coupled with the lack of effective recycling and disposal mechanisms, has resulted in a staggering amount of toxic waste. Discarded computers, smartphones, televisions, and other electronic devices contain hazardous materials like lead, mercury, and cadmium, which can contaminate soil, water, and air if not disposed of properly. The improper disposal of e-waste also leads to the loss of valuable materials like copper, gold, and silver, which could be recovered and reused. Furthermore, the informal recycling of e-waste in developing countries has severe health implications for workers, particularly children, who are exposed to toxic chemical.
