

Rotaract Club of Khandwala

Organizes

TRAFFIC MANAGEMENT DRIVE

Date: 7th, 8th, 11th, 13th & 17th September, 2024

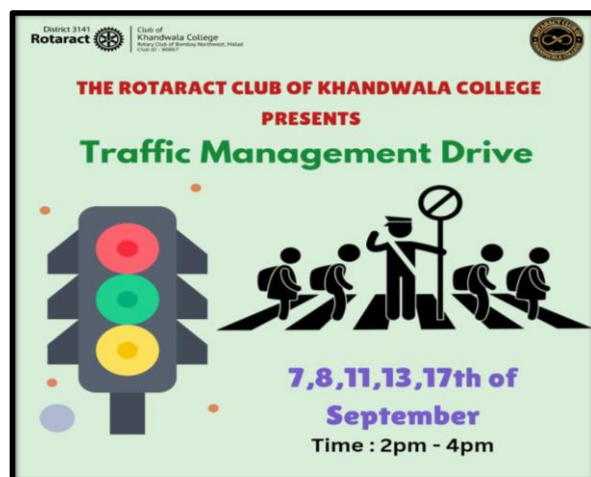

Venue: Marve Road Signal

No. of Participants: 22

Description

The Rotaract Club of Khandwala actively participated in a Traffic Management Drive on September 7th, 8th, 11th, 13th, and 17th, 2024, near the college at Marve Road Signal, during the busy Ganpati Visarjan processions. The drive aimed to assist the traffic police in managing the heavy vehicular and pedestrian flow, ensuring smoother and safer movement for devotees and commuters. The initiative helped participants develop real-time problem-solving skills, patience, the ability to work efficiently under pressure, strengthened their communication and teamwork capabilities, as they collaborated closely with the traffic police and fellow volunteers. With the dedicated efforts of the Club's Community Service, the event promoted civic responsibility, leadership, and effective on-ground coordination. Rotaractors played a crucial role in regulating traffic, guiding pedestrians, and supporting the authorities in maintaining order during one of the city's most crowded festive periods.
