

**Rotaract Club of Khandwala**

Organizes

**COFFEE STROKE**

**Date:** 23<sup>rd</sup> November, 2024

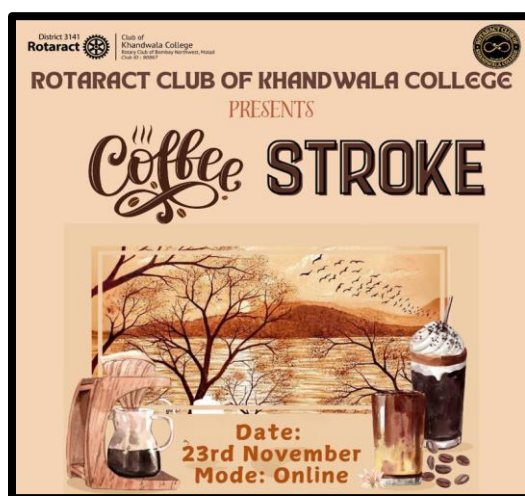

**Venue:** Online

**No. of Participants:** 17

**Description**

Coffee Strokes was a creative art event where participants used coffee as a medium to express their artistic ideas. Instead of traditional paints, brewed coffee was used to create unique artworks, bringing a warm and earthy tone to each piece. The event encouraged artists to think outside the box and explore sustainable, everyday materials in art. Participants were given basic tools like brushes, paper, and different shades of coffee. It was a great platform to showcase talent in a non-traditional yet expressive form. The event also helped individuals improve their painting techniques and experiment with texture and shading. By displaying their work, participants gained recognition and built confidence in their creative abilities. Overall, Coffee Strokes blended creativity, sustainability, and community into a memorable artistic experience.
