Organizes

COLORS OF THE EARTH

Date: 10th December, 2024

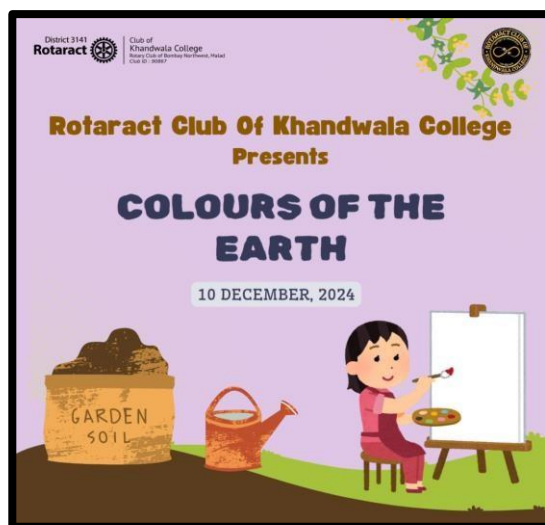

Venue: Online

No. of Participants: 13

Description

The Rotaract Club of Khandwala College celebrated World Soil Day by organizing “Colours of the Earth,” a creative event where members showcased their artistic skills through soil painting. Using natural soil as the medium, participants crafted vibrant artworks, exploring the potential of earthy tones and textures. This innovative approach promoted sustainability, creativity, and environmental awareness, highlighting the importance of soil conservation and sustainable land management. The event made a lasting impact, inspiring members to appreciate the value of soil and its role in our ecosystem.
